

Scott Mesch - Vice President, Sales and Customer Service

Prior to joining ionSKY, Mr. Mesch was President of StarPlay Productions, Inc. (www.starplay.com), a Colorado-based software publishing company he founded in March of 1993. StarPlay sold its products through major software retailers in the United States and had distributors in over a dozen foreign countries. From February 1990 to September 1991, he was Vice President of Sales and Marketing at California-based AIM Technology, a software company specializing in UNIX performance management. From July 1984 to September 1989, he was President and Chief Executive Officer of Softguard Systems, Inc. a Nasdaq-traded software protection company based in Silicon Valley. Softguard was the industry leader in software protection. From 1982 to 1983 he was President of Paragon Systems, a software consulting company he founded.

Jim Leist – Principal

Jim Leist has been involved in rural telecommunications since 1997. A graduate of New Mexico State University with a B.B.A. in Management, he has worked for such diverse organizations as NASA, Rockwell International, and Farmland Industries. Since 1995, he has lived in the San Luis Valley, an isolated rural region of southern Colorado. He is the Executive Director of El Telar – SLV Rural Telecommunications Project. El Telar provides free e-mail and bulletin board services to all Valley residents and has been a strong advocate for reasonable broadband access for rural communities throughout Colorado and other western states. Jim is a has worked with a number of community projects, as a member of the Colorado Rural Development Council, a partner in a Managing Information in Rural America grant from the W.K. Kellogg Foundation, the regional School-to-Career Council, and UCAN/RSI, a systemic math and science initiative funded by the National Science Foundation. He is a past Research Fellow at the Massachusetts Institute of Technology's Department of Urban Studies and Planning.
