

WSB Computer Consulting LLC (WSBCC) was originated in 1998 as a division of Wall, Smith, Bateman & Associates, Inc., an accounting firm in the San Luis Valley for over 30 years. The foundation of our division came from the increasingly high demand for integrating accounting and technology services. Since our inception, our main focus has always been to provide the best technology solutions for our clients. Through hard work and premium service offerings, we have grown dramatically over the last six years to become the leading provider of technology solutions in the San Luis Valley. WSBCC employs eight people which three of them are 3COM Voice Certified Specialists with a combined experience of over 25 years in Voice & Data systems. WSBCC has successfully implemented & deployed numerous single & multi-site networks with multiple servers, connected 3COM VOIP systems with wireless links and currently in the process of networking VOIP systems for Alamosa County. WSBCC is also responsible for the maintenance & installation of the networking infrastructure of Alamosa County, Rio Grande County, Saguache County and Conejos County. In addition, WSBCC maintains the Valley 911 system.
