

Geothermal Workshop: Uses in the San Luis Valley

- 9am Welcome - Hew Hallock, Colorado Governors Energy Office
- 9:10 Geothermal Energy Potential in the SLV
Paul Morgan, Colorado Geological Survey
- 9:45 Water Resources of the San Luis Valley
Pat McDermott, CO Division of Water Resources
- 10am Geothermal Greenhouses and Direct Use Applications
Jim Witcher, Witcher and Associates, Inc.
- 11am SLV Case Studies and Discussion with Mike Wisdom, SLV Development Resources Group
- 12nn - 1pm Lunch (On Your Own)**
- 1pm Heating & Cooling with Geo Energy Heat Pumps
Trey Austin, Geo-Energy Services, Inc.
- 2:30pm SLV Case Studies and Discussion with Mike Wisdom, SLV Development Resources Group
- 3:30pm Wrap Up, Hew Hallock, Colorado Governors Energy Office
- 4pm Adjourn

- **HAVE YOU GOT SOME GEOTHERMAL INSIGHTS TO SHARE?**

We are looking for articles on geothermal applications in Colorado and the Rocky Mountain region. The Rocky Mountain Association of Geologists (RMAG) is a nonprofit organization based in Denver, Colorado. Our purposes are to promote interest in geology and its practical application, to foster scientific research, and to encourage cooperation. We publish a quarterly journal, *The Mountain Geologist*, which circulates to 2200-plus RMAG members and ~200 university libraries and industry associates.

***The Mountain Geologist* is a regionally-oriented, peer-reviewed publication which focuses on the geology of the Rocky Mountains.** The journal includes articles on a variety of geologic subdisciplines. The advantage of publishing in *The Mountain Geologist* is that it reaches a core audience of geologists across the Rocky Mountain region. Past issues of the journal are also accessible online through Georef and the AAPG website.

We are pursuing a special ‘theme’ issue of *The Mountain Geologist* on geothermal energy and would love to hear from you. Technical articles are typically 10-20 double-spaced pages, plus figures.

Editors Joy Rosen-Mioduchowski and Jeanette DuBois can be reached at joyrosenm@gmail.com or 720-283-6475. The RMAG office can also answer questions at 303-573-8621.
